DETAILED ACTION

Election/Restrictions

- 1) Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-26, 29, 30, 31, 39, 44, 48 are drawn to Parsing a markup language document , classified in class 715, subclass 513.
 - II. Claims 27, 28, 32, 33, 34, 35, 36, 37, 38, 40, 41, 42, 43, 45, 46, 47, 49, 50, 51-54, 55, 56, 57, drawn to Validating a markup language document, classified in class 715, subclass 511.
- 2) The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as parsing of markup language whereas invention II has separate utility such as Version management of documents without parsing. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper. .

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
